Safety data sheet according to UK REACH

Printing date 10.12.2024

Version number 33 (replaces version 32)

Revision: 10.12.2024

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

Trade name 1.2 Relevant identified uses of the substance or mixture	MC-Color Flex pure
and uses advised against Application of the substance	No further relevant information available.
/ the mixture	Dispersion paint/ Latex paint Surface protection
1.3 Details of the supplier of t	he safety data sheet
Manufacturer/Supplier:	MC-Bauchemie Müller GmbH & Co. KG Am Kruppwald 1-8
	D-46238 Bottrop Tel.: +49(0)2041-101-0
	Fax.: +49(0)2041-101-400
	E-Mail: info@mc-bauchemie.de
	MC-Bauchemie AG
	Hagackerstr. 10
	CH-8953 Dietikon
	Tel.: +44-7400510
	Fax : +44-7400533
Informing department: 1.4 Emergency telephone	msds@mc-bauchemie.de
number:	Tel.: +49 / (0)700 24112112 (MCR)
	Tel.: +1 872 5888271 (MCR)

SECTION 2: Hazards identification

• 2.1 Classification of the substance or mixture • Classification according to Regulation (EC) No 1272/2008 Skin Sens. 1 H317 May cause an allergic skin reaction.

· 2.2 Label elements

Labelling according to

- **Regulation (EC) No 1272/2008** The product is classified and labelled according to the GB CLP regulation.
- Hazard pictograms

Warning

GHS07

 Hazard-determining components of labelling:

2-methyl-2H-isothiazol-3-one

(Contd. on page 2)

GB

· Additional informa	tion For the wording of the listed hazard phrases	refer to section 16.
	Acrylic dispersion	
	Chalk	
	Water	

asures
For all first aid measures: observe self-protection and consult a doctor!
Take the person out into the fresh air.
Remove heavily soiled clothing.
Clean with plenty of water.
Do not use thinner or similar.
Rinse for 10 minutes under running water with the eyelids open or use eye rinsing solution. Always consult an ophthalmologist!
Do not induce vomiting.

Drink plenty of water in small sips.

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents Use fire fighting measures that suit the environment.
- 5.2 Special hazards arising from the substance or mixture
 5.3 Advice for firefighters
- Protective equipment: No special measures required.

(Contd. on page 4)

Page 4/11

SECTION 6: Accidental release measures		
Not required.		
Dilute with much water.		
: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).		
No dangerous materials are released.		

SECTION 7: Handling and storage

7.1 Precautions for safe handling	No special measures required. No special precautions necessary if used correctly.
7.2 Conditions for safe storag Storage Requirements to be met by	ge, including any incompatibilities
storerooms and containers:	Protect containers from frost! Only store in the original container or in containers recommended by the manufacturer. After decanting, label containers as original containers. Do not store in break rooms, recreation rooms or sanitary facilities as well as in stairwells, corridors, escape and rescue routes, passages, passageways and confined spaces.
Further information about storage conditions: Storage class	None. 12

SECTION 8: Exposure controls/personal protection

· 8.1 Control parameters · Components with critical values that require monitoring at the workplace: CAS: 1317-65-3 Calcium carbonate WEL Long-term value: 10* 4** mg/m³ *inhalable dust; **respirable · DNELs CAS: 1317-65-3 Calcium carbonate Oral DNEL 6.1 mg/kg bw/Tag (ArL) Inhalative DNEL 10 mg/m³ (ArL) (Contd. on page 5)

Printing date 10.12.2024

· PNECs	
CAS: 1317-65-3 Calcium car	bonate
PNEC 100 mg/l (Sewage Tre	atment Plant)
Additional information:	The lists that were valid during the compilation were used as basis.
[.] 8.2 Exposure controls	
• Appropriate engineering	
controls	No further data; see section 7.
 Individual protection measu General protective and 	ires, such as personal protective equipment
hygienic measures	Do not store any foodstuffs or eat, drink, snuff or smoke in the work area!
	Avoid contact with eyes and skin!
	Preventively apply skin protection ointment to facilitate skin cleansing.
	Remove product residues from the skin!
	Clean hands thoroughly at the end of work and before cleaning! Remove product residues from the skin with a suitable cleaning agent - never use solvents or thinners to clean the skin! Use skin care products after work (moisturising cream).
· Breathing equipment:	For spraying processes: Particle filter P2 (white)
· Hand protection	Gloves made of: Natural latex, polychloroprene, nitrile rubber. (Category 3 chemical protective gloves, recognisable by the CE mark with four-digit test number).
	When wearing protective gloves, cotton undergloves are recommended.
[.] Material of gloves	Natural latex, polychloroprene, nitrile rubber.
· Penetration time of glove	······································
material	The exact breakthrough time must be obtained from the protective glove manufacturer and must be observed.
· Eye/face protection	Frame glasses
Body protection:	Protective work clothing.
Skin protection	Use greasy skin protection ointment for all uncovered parts of the body!

SECTION 9: Physical and chemical properties

 9.1 Information on basic physical and cher General Information 	mical properties
· Colour:	According to product specification
· Smell:	Characteristic
· Melting point/freezing point:	Not determined
Boiling point or initial boiling point and	
boiling range	100 °C (CAS: 7732-18-5 water, distilled, conductivity or of similar purity)
Flash point:	Not applicable

SECTION 10: Stability and reactivity

· 10.1 Reactivity

· 10.2 Chemical stability

No further relevant information available.

• Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

 10.3 Possibility of hazardous reactions

No dangerous reactions known

properties	The product does not contain substances with endocrine disrupting properties.
 12.7 Other adverse effe Additional ecological ir 	
· General notes:	Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.
SECTION 13: Dispo	osal considerations

• 13.1 Waste treatment method • Recommendation	ds Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
 Uncleaned packagings: Recommendation: 	Empty contaminated packagings thoroughly. They can be recycled after thorough and proper cleaning.
Recommended cleaning agent:	Water, if necessary with cleaning agent.
